Examiner's Amendment

An Examiner's Amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 C.F.R. § 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the Issue Fee.

The application has been amended as follows:

- Please amend the TITLE to read as follows: Methods for the detection of HIV-1 or -2 antigens employing monoclonal antibodies that recognize a shared HIV-1/-2 epitope in the capsid p24/p26 proteins.

37 C.F.R. § 1.98

The information disclosure statement filed 17 November, 2003, has been placed in the application file and the information referred to therein has been considered to the extent noted. Applicants are reminded that 37 C.F.R § 1.98(b) requires that each item of information in an IDS be identified properly. U.S. patents must be identified by the inventor, patent number, and issue date. U.S. patent application publications must be identified by the applicant, patent application publication number, and publication date. U.S. applications must be identified by the inventor, the eight digit application number (the two digit series code and the six digit serial number), and the filing date. If a U.S. application being listed in an IDS has been issued as a patent or has been published, the applicant should list the patent or application publication in the IDS

instead of the application. Each foreign patent or published foreign patent application must be identified by the country or patent office which issued the patent or published the application, an appropriate document number, and the publication date indicated on the patent or published application. **Each publication must be identified by publisher, author (if any), title, relevant pages of the publication, and date and place of publication.** The date of publication supplied must include at least the month and year of publication, except that the year of publication (without the month) will be accepted if the applicant points out in the information disclosure statement that the year of publication is sufficiently earlier than the effective U.S. filing date and any foreign priority date so that the particular month of publication is not in issue. The place of publication refers to the name of the journal, magazine, or other publication in which the information being submitted was published. Pending U.S. applications that are being cited can be listed under the non-patent literature section or in a new section appropriately labeled. References **C5** (sheet 2) and **C43** (sheet 5) have been considered but will not be printed on the face of the patent because the IDS fails to list the publication year.

Reasons for Allowance

The following is an Examiner's Statement of Reasons for Allowance: The claimed invention is directed toward a method of detecting HIV-1/-2 antigens in a sample utilizing one or more monoclonal antibodies that cross-react with a shared epitope present in both the HIV-1 and -2 capsid proteins p24 and p26, respectively. The prior art fails to teach the claimed

antibodies of interest. Accordingly, the claims are unobvious in view of the prior art. The amended claims accurately define the applicants' invention and are of such scope that the specification provides an enabling disclosure. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Correspondence

Any inquiry concerning this communication should be directed to Jeffrey S. Parkin, Ph.D., whose telephone number is (571) 272-0908. Box 1450, Alexandria, VA 22313-1450), or d) transmitted to the Office using the Office's Electronic Filing System. This notice replaces all prior Office notices specifying a specific fax number or hand carry address for certain patent related correspondence. For further information refer to the Updated Notice of Centralized Delivery and Facsimile Transmission Policy for Patent Related Correspondence, and Exceptions Thereto, 1292 Off. Gaz. Pat. Office 186 (March 29, 2005).
